

Safety Day(s) are just around the corner!

We are very excited to see everyone in November! We have fun, interactive, and informative information to share along with some fantastic presenters. Please make sure you RSVP for your desired day of attendance, seats are filling up fast! If you have any cool or fun work-related photos please share them with us, we want to celebrate 2025 with your help. Please send them to marchant@woodsconstruction.com

“I Fixed It!” Program

Submit a photo and win a pizza party for your job site! Show the hazard and what you did to correct it. It's that easy! One winner will be selected each month.

Woods Cookbook

We are still looking for recipes to create a cookbook to share with everyone. Things like dessert, breakfast, dinner, or snacks. Share with Carl your favorite recipes while on the road or at home.

A New Way to Track Safety

We've rolled out a new system to make things easier in the field! Not only can you use it to track site inspections, but you now have quick access to the safety manual and other important documents you may need to review or fill out. The system also helps the safety team support crews more quickly.

If you're not set up yet or need a hand using the system, just reach out to the safety team—we're here to help.

Warby Parker opens in Target!

Woods had the honor to be a part of an initial debut of Warby Parker in select Target stores. These stores include Brick, NJ., Columbus, OH., and Exton, PA. These stores not only provide a place to purchase eyewear but you can receive an eye exam as well. It is an all in one stop to take care of you eye care needs.

Target and Warby Parker Announcement

Cyber Security Awareness Month– October

This month serves as a reminder to stay vigilant in protecting our digital lives. Cyber threats continue to evolve, and simple steps—like using strong passwords, enabling multi-factor authentication, updating software, and thinking twice before clicking suspicious links—can make a big difference. Together, we can build safer online habits and keep our information secure. We will be sending you training videos to help keep yourself and Woods safe from Cyber Threats.

Progress to Celebrate

Pensole Lewis College

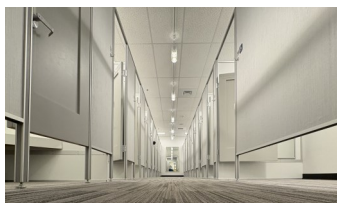

Looking to the future and bringing attention to Detroit! We recently updated part of the Bedrock Icon Building to bring Pensole Lewis College (PLC) back to Detroit. The only HBCU in Michigan! PLC is not a “traditional” business school. Its mission is to prepare students for careers in **product creation industries**, especially those involving design—footwear, apparel, color strategy, materials, and brand/product marketing. It emphasizes a **learn-by-doing** model: hands-on experience, real-world industry engagement, and partnerships.

PLC Detroit

Nordstrom Rack

Woods is making Nordstrom safer, one store at a time. We have been popping all across the country adding custom designed panels to the bottom of changing rooms to ensure the safety of patrons while they try on clothes. This addition provides additional peace of mind while finding your next favorite outfit!

Certificate of Commendation for Excellent Safety Record

On August 13th, Woods Construction received a certification through the Associated General Contractors (AGC) of Michigan for Zero Incidents during 2024. We take safety seriously here at Woods and this award shows our dedication to ensure a safe working environment. Thank you to everyone who made this possible!

Suicide Prevention Month

September is Suicide Prevention Month — a time to raise awareness, break the stigma, and remind one another that help is always available. Mental health is just as important as physical health, and taking the time to check in with yourself and others can make a real difference. Together, we can support mental health, spread hope, and save lives. If you or someone you know is struggling, please know you are not alone. Call or text 988 to connect with the Suicide & Crisis Lifeline for free, confidential support 24/7. [988 Lifeline](https://www.988lifeline.org/)
